PROFESSIONAL SUMMARY

Dedicated Frontend and Full-Stack Developer with 4.4 years of experience in building dynamic, user-friendly applications and robust backend systems. Proficient in modern technologies including React.js, Next.js, React Native, Node.js, and MongoDB, delivering high-quality, scalable solutions with a strong customer-first approach..

SKILLS

Technologies

- React Native
- React
- Next.js
- JavaScript (ES6+)
- TypeScript
- HTML/CSS
- CSS Framework (Bootstrap , SASS, Tailwind CSS)
- Node.js
- Express.js
- Mongodb

State Management:

- Redux / Redux Toolkit
- Context API
- React Hooks
- Zustand

API Integration:

- REST API Integration
- Axios / Fetch API
- Postman (for testing APIs)

EXPERIENCE

Xebia (React Native Developer) **Jul 2024 - Present**

- Developed and maintained cross-platform mobile applications with a focus on performance and user experience. Successfully delivered secure and feature-rich banking applications, adhering to industry standards.
- Collaborated with cross-functional teams to implement efficient workflows and resolve complex technical challenges..
- Proficient in integrating APIs, managing local storage, and optimizing app performance. Committed to delivering high- quality, scalable solutions within deadlines.

SportsIT (Frontend Developer) **Oct 2021 - Jun 2024**

- Designed and developed mobile and web applications, including game apps and sportsbook platforms, ensuring seamless user experiences.
- Built responsive and interactive user interfaces using React Native and modern web technologies like React.js and Next.js.
- Optimized app performance and scalability through effective code practices and debugging techniques. Collaborated with designers and backend teams to implement features and ensure cross-platform compatibility.

C360 Software (Full-Stack Developer Intern) **Apr 2021 - Sept 2021**

- Contributed to the development of an HRM (Human Resource Management) application using React.js for the frontend and Node.js for the backend.
- Designed and implemented user-friendly interfaces, ensuring responsive design and seamless user experiences. Built and integrated RESTful APIs to manage application functionalities and database operations.
- Utilized MongoDB for efficient data storage and retrieval, ensuring data consistency and security.

PROJECTS

Defender (Next js)

- Developed a Crash Game application using Next.js, where users predict the crash point and win money.
- Implemented Next.js routing for smooth and dynamic navigation between pages.
- Gained practical experience with Server-Side Rendering (SSR) to improve SEO and performance.
- Worked on real-time game logic and user interaction features.
- Enhanced understanding of Next.js project structure and best practices.

10-Bet (React Native)

- Contributed to a betting platform launched in four African regions.
- Integrated SportsBook odds APIs for real-time betting data.
- Implemented dynamic navigation for a seamless user experience.
- Worked on various native features to enhance functionality.
- Improved knowledge of API integration and platform-specific optimization.

UpCric (React)

- Developed an NFT marketplace app for buying and selling NFTs.
- Worked on NFT integration to enable secure transactions.
- Implemented user profile management for personalized experiences.
- Learned and applied nested routing for structured navigation.
- Explored and utilized advanced React-DOM features to enhance functionality.

CricCTT(React Native)

- Built a React Native application featuring 3 free-to-play cricket games.
- Worked on game integration to ensure smooth gameplay experience.
- Gained in-depth knowledge of React Native core features.
- Implemented Linking and other native modules for enhanced app functionality.
- Improved skills in mobile app development best practices.

Playbig Games (React Native)

- Built a React Native application featuring 3 free-to-play soccer games.
- Developed a coin-earning system where users earn coins by playing games.
- Enabled users to redeem coins for merchandise within the app.
- Worked on game integration to ensure smooth and engaging gameplay.
- Gained deeper knowledge of React Native core features, including Linking and native modules.

Pari-Match (React Native)

- Developed a betting application using React Native.
- Integrated SportsBook odds APIs for real-time betting data.
- Worked on multiple API integrations to enhance app features.
- Improved understanding of React Native components and their usage.
- Strengthened skills in mobile app development best practices.

Securekey — Personal Project (React Native)

- Developed Vault, a password manager app built entirely with frontend technologies.
- Implemented features to add, edit, delete, categorize, and mark passwords as favorites.
- Stored all user data securely in local storage for offline functionality.
- Enabled password backup and restore capabilities to prevent data loss.
- Added functionality to export saved passwords as PDF for easy offline access.

Groupify — Personal Project (React Native)

- Built Groupify, a full-stack app enabling real-time group collaboration using WebSockets.
- Implemented group creation with role-based access control (Creator & Reader) for shared notes, ensuring readers can only view content.
- Integrated live updates for seamless multi-user note sharing.
- Developed a Splitwise-style expense tracker where users can create trip/event groups and record expenses.
- Automated bill splitting among group members and provided detailed views of individual contributions and expenses.

DearFuture — Personal Project (React Native)

- Built a scalable application to help users plan, reflect, and track personal goals over time.
- Designed and developed reusable UI components with a focus on clean UX and performance.
- Implemented secure authentication and user data management.
- Integrated real-time updates and state management for smooth user interactions.
- Followed modular architecture and best coding practices for maintainability and scalability.
- Deployed and managed the project end-to-end, including testing and production readiness.

EDUCATION

B.Tech (ECE) (05/2017 - 04/2021)

Centurion University of Management and Technology

CGPA - 8.2
